MEMORANDUM FOR THE GENERAL COUNSEL

SUBJECT: Use of Consultants by the Board of National Estimates

1. You have inquired as to the number and status of consultants whose services are now being made available to the Board of National Estimates. At the present time, the Board is consulting on a regular basis with seven such consultants. Of these, five are not retired military or Foreign Service officers receiving retirement benefits from the United States Government.

2. It is noted that four of these seven consultants are officially designated as consultants to the Director of Central Intelligence. The Board of National Estimates is, however, the primary office of CIA which makes use of their services.

/s/
WILLIAM L. LANGER
Assistant Director
National Estimates
